

# Certification Program for Security System Integrators

Demonstrate your professionalism and differentiate yourself by joining the [IDEMIA Biometric Devices Certification Program](#), that allows Security Systems Integrators to become proficient in the installation and configuration of IDEMIA's biometric access control terminals.

## Biometric Consultant

Customers trust sales people who know what they are talking about. Designed for your sales team, this training program will demystify biometric access control and make sure your team can be successful presenting the solutions to end users.

## Biometric Professional

This technical training program will provide to your team with extensive knowledge and all the tools to become proficient in the design, installation and support of IDEMIA biometric access control solutions.

## Biometric Administrator

This training program is designed for technical people who manage systems on large end user sites. It will ensure not only the mastery of the biometric devices themselves but also of the different software and tools to maintain a secure operation.

## Biometric Solution Reseller

The prestigious IDEMIA Certified Biometric Solution Reseller status is achieved by maintaining an appropriate team of trained and certified specialists from each of the above three categories.

Individual trainings

Company level

## Your benefits

- Offer the **best in class biometric access control solutions** to your customers : pioneer of this industry with over 40 years of experience in biometrics, IDEMIA will help you position yourself as *the* reference in your region.
- **Professional and faster installation** : save time, resources and money by making sure your teams have the proper knowledge to design, install, support and professionally manage cutting edge biometric access control technology.
- **Differentiate yourself on your market** : be recognized by the end user community as trained expert in biometric access control.
- Demonstrate : using the equipment every day and demonstrating it to end users is the first step to being successful. Get **IDEMIA demo equipment at preferred prices**.
- **Be visible** : make sure end users looking for a skilled reseller will **find you easily** in the IDEMIA certified partners list.
