IDEMIA

Market-Leading Biometric & Secure Identity Solutions

FEDERAL GOVERNMENT
TSA, FBI, DHS, DoS, DoD, CBP

STATE & LOCAL GOVERNMENT
State DMVs, Law Enforcement

TRAVEL & TRANSPORTATION
Airlines, Airports, Cruise Lines

NATIONAL SECURITY
Embassies, Military Installations, Critical Facilities

COMMERCIAL ENTITIES
Private Companies, Retail, eCommerce, Universities, Stadiums

Providing the most trusted identity & security services in North America

IDEMIA I&S is a leader in identity security and authentication services to governments and private companies, operating in North America. Our mission is to help people access what matters most more quickly, more safely, and more securely, in both the physical and digital worlds. Our best-in-class technology helps to authenticate and secure physical and digital transactions.

IDEMIA is recognized by the National Institute of Standards and Technology (NIST) as a top-ranking participant in the Institute's passenger facilitation simulation testing as well as in its regular Face Recognition Vender Test (FRVT) rankings, reinforcing the trustworthiness and reliability of IDEMIA's facial recognition solutions for government and consumers alike.

IDEMIA dependably supports partners and offers them the scale they need to fulfill their missions. Our biometric technologies consistently rank in the top three in testing by NIST, with our facial recognition algorithm **ranked first** in March 2021.

Industry Leader

#1 supplier of DL/ID cards across the U.S. with 55M+ per year

#1 issuer of mobile driver licenses

#1 U.S. supplier of automated biometric services

Proven Scalability

400M+ Facial images managed for the U.S. Dept of State

100B+ Multi-model biometric searches

12M+ Enrolled in TSA PreCheck®

Trusted Partner

1st **and only** provider of credential authentication technology at U.S. airports

17 U.S. Federal agencies

35 U.S. states and territories

Comprehensive Solutions for Complex Needs

We understand the complex requirements of securing people, data, borders, and facilities. We help you rise to the challenge with our industry-leading **biometric and secure identity technology**.

Some examples of what this looks like in practice:

✈ TSA
KEEPING TRAVEL SAFE

- Enrollment services for **TSA PreCheck®** program.
- Fingerprinting for Transportation Worker Identification Credential **(TWIC),** Hazardous Materials Endorsement **(HME),** Threat Assessment Program **(HTAP),** and Flight Training Security Program **(FTSP)** certification certification.
- Contactless airport check-in and passenger facilitation using document authentication and biometric hardware and software.

DMVs
OPERATIONAL EFFICIENCY & MODERNIZATION

- Front-end and back-end software for DMV offices.
- Driver license card issuance.
- Remote driver knowledge testing, secured using biometric input.
- **IdentoGO Tablet®** for mobile DMV transactions.
- **Mobile ID**: secure digitized driver license, currently deployed in five states.

National Security
PROTECTING CITIZENS, SECURING FACILITIES

- Cutting-edge identity intelligence offerings and over 60 years of providing U.S. Federal agencies with an extensive portfolio of hardware, software, and services has driven consistent results, enabling America's defense, intelligence, and homeland security posture.

Commercial
SOLUTIONS FOR THE PRIVATE SECTOR

- Secure access control using biometrics or advanced access cards.
- Secure digital transactions thanks to digital identity solutions rooted in government systems of record (while not storing any personal data).
- Unmatched integration with government systems, e.g., seamless Customs checks on embarkation/debarkation of cruise ships owned by Royal Caribbean, by connecting MFACE data to CBP systems.

Law Enforcement
SOLVING CRIMES FASTER

- **ABIS** (Automated Biometric Identification System), available both on-prem and in the cloud through the first-ever cloud ABIS solution, **IDEMIA STORM ABIS**.
- **TPE Livescan** digital fingerprinting and booking hardware and software solution.
- **Mobile Biometric Check**: mobile-phone app for biometrics-based identification (face and fingerprints).
- Integration with **Rapid DNA Testing** systems for DNA matching while a suspect is in custody.
