

ID2Enrollment

Convenient and secure remote user enrollment

ID2ENROLLMENT PROVIDES THE ABILITY FOR ANYONE TO REMOTELY ENROLL IN THE ID2ACCESS SOLUTION

The ID2Enrollment application empowers employees, contractors, and visitors to verify their identity before reaching the installation express lanes.

Installation employees, contractors, and visitors utilize their smartphones to submit credential, biometric, and biographic data and to remotely request vetting for facility access. It captures various forms of data, including fingerprints (on-premises), facial images, biographic information, and identification documents such as passports and driver's licenses.

Remote Enrollment

Key Benefits

IDENTITY PROOFING AND VERIFICATION

Capture any combination of facial image, biographic information, and identification documents.
